

Belle Beauty

An experience to remember and to show for... **Belle Beauty** has treated me (Sascha, the editor) to a non-surgical facelift and a nail treatment. It was certainly a first for me, but will it be for you after reading this?

The Salon

Belle beauty is luxurious salon situated in Belle Vue Fitness & Beauty on Wells road. Lucy and Kellie offer a wide range of treatments from eyelash perming to non-surgical body & face lifts. Belle Beauty stocks Guinot skincare, Biosculpture, Sienna X and New C-ID make-up. Whether you come in for 15 minutes or a whole day of pampering you are guaranteed to leave feeling pampered & relaxed.

A fantastic pampering session

I have just reached the age of 42, and that might be why Lucy, the owner of Belle Beauty invited me in to experience a two hour long pampering session. First treatment was a non-surgical face lift. It sounds impressive, and that is what it was. Lucy explained every step, so I would know what to expect and I managed to relax and enjoy the session. It all has to do with this 'new machine', called the DermaCo Pro unit.

The DermaCo Pro unit

This is a 7-in-1 system that allows a personalised treatment procedure for each individual client depending on their own personal needs and requirements on the face or body. Belle Beauty is currently the only salon in Malvern offering Ultra sound & light therapy as standard to finish a facial. They have found it really exciting taking on new salon treatments, positioning them at the forefront of microdermabrasion & non-surgical face lifts and the results have been amazing.

The DermaCo Pro unit has:

- Thermotherapy - warms the skin to open pores, relax collagen tissue, decrease joint stiffness, reduce pain, relieve muscle spasms and reduce inflammation.
- Diamon tip Microdermabrasion - diminishes skin abnormalities, deep exfoliation leaving skin

refreshed & rejuvenated. Fantastic for scars, stretch marks, fine lines, open pores & pigmentation.

- Ultrasound - waves stimulate the skin tissue that push products deeper in to the skin to promote collagen & elastin. Also reduces fine lines & wrinkles. Ultra sound can be used on sports injuries with massage to repair muscle.
- Skin peeler - deep cleansing exfoliation for all skin types as it won't cause redness or irritation, especially good for sensitive skins.
- Biolift (non surgical facelift) - emits a very tiny amount of electrical current that tones and firms facial contours, tightens sagging skin, lifts eyes, reduces eyebags, dark circles and increases cell renewal.
- LED light therapy - Different colours treat different skin types, ideal for acne skins, promoting collagen & elastin and muscle repair.
- Cryotherapy - Cools the skin to soothe, close pores & lock in products used on the skin.

Special Offer:

- £50 off a course of 10 'biolifts'
- £100 off a course of 10 'ultimate DermaCo treatments'
- £5 off Bio Sculpture nails

Nail Treatment

My session was finished by a fantastic nail treatment. Bio Sculpture offers a permanent nail colour that lasts for weeks without wearing or chipping.

The advantage of Bio Sculpture

Colour Gel is that you can easily change your nail colour by simply applying Bio Sculpture Varnish. I have certainly discovered the difference of a healthier nail treatment that's a pleasure to use and wear. Bio Sculpture Gel makes nails beautiful, flexible and strong, and will not damage the natural nails.

Lucy Crouch & Kelly Mason

Lucy has done a good job in rejuvenating me, and if you are interested in the treatments, give her and Kellie a ring on **01684 576666** to book a session or find out more. You will find Belle Beauty on 41 Wells Road, Malvern.
